

Manuscript Title (Times New Roman, Font Size 14)

Abstract

Not more than 500 words

Keywords

Mention 3 to 5 keywords separated by semicolon.

1. Introduction

Text of the manuscript should be in Times New Roman with font size 11 and line spacing 1.5.

2. Materials and Methods

2.1. Industrial waste

2.2. Biological waste

2.3. Chemical

3. Analysis

4. Results and Discussions

5. Conclusions

Figures

Please insert high-resolution figures only. Text in the figures should be in Times New Roman with font size 9. Captions should be inserted at the bottom of the figure with font size 10.

Tables

Text in the tables should be in Times New Roman with font size 9. Captions should be inserted at the top of the table with font size 10.

Table 1.1: Hazard and Control Measures

S. No.	Hazard	Control Measures

References

All the references should be cited in the text, for example, (Abrahamson and Silva, 1997). Use “*et al.*” if more than two authors are there, for example, Baldi *et al.* (1989)

Please insert references in the following format mentioned below.

Articles: Abrahamson N.A. and Silva W.J. (1997). “Empirical response spectral attenuation relations for shallow crustal earthquakes”. *Seismological Research Letters* 68(1):94-127.

Conference papers: Baldi G., Bellotti R., Ghionna V.N., Jamiolkowski M. and Lo Presti D.C.F. (1989). “Modulus of sands from CPT's and DMT's”. *Proceeding of 12th International Conference on Soil Mechanics and Foundation Engineering* 1:165-170, Rio de Janeiro, Brazil.

Codes: ASTM D-4015 (2015). “Standard test methods for modulus and damping of soils by the resonant-column method”. American Society of Testing and Materials, West Conshohocken, Pennsylvania, USA.
